INTRODUCING NECTAR SLEEP UK:

Nectar Sleep UK was born of Resident Home, the largest direct to consumer bed brand in the USA. Nectar has a proven reputation for delivering an exceptional night's sleep, with over 6 million sleepers resting on our mattresses worldwide.

With over 3 million global website visits every month, we are shaking up the in-store retail model by sending pre-qualified customers to your store using our online store locator.

Our retail range is exclusive to our retail partners, so your customers cannot buy the product directly from us. This offers you margin protection and with an average delivery time of less than a week, it's a great option to make an easy sale!

We are a certified member of the National Bed Federation and all of our mattresses sold in the UK are made in Britain.

“

Our mission is simple. To provide your customers with the best night's sleep possible and to provide our bed retailers with the easiest sell of your lives.

”

OUR UNIQUE SELLING POINTS ARE TRULY GENUINE:

365 NIGHT TRIAL

We are so confident that your customers are going to love our mattresses, that we offer a 365 night home trial providing them with peace of mind.

Our mattresses have a reputation for selling fast, and they stay sold. Did you know we have less than a 1% return rate?

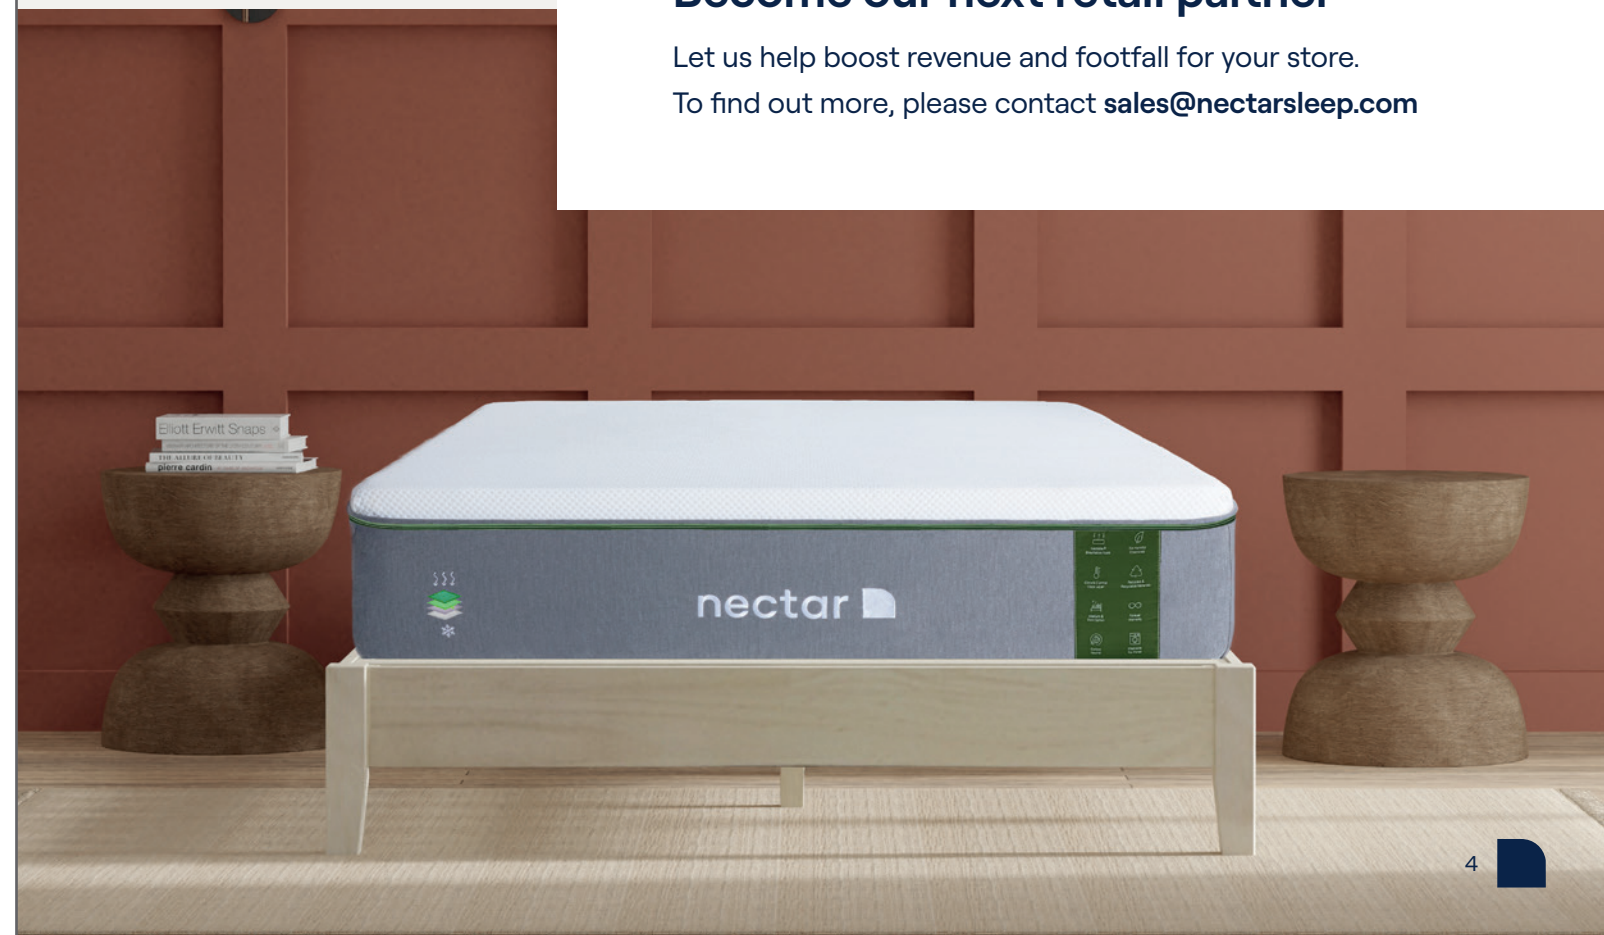

FOREVER WARRANTY

We are the ONLY mattress manufacturer to offer a Forever® Warranty with all returns fully taken back.
